About safewealthholdings.com

safewealthholdings.com is an Australian Venture capital firm that manages a Crypto Hedge fund that invests in Blockchain technology and early token sales. The fund started as a way to reinvent investment strategies for token sales.

safewealthholdings.com only invests in early token sales that pertain to an actual business, and not Initial coin offerings of tokens without interaction of a product or business.

safewealthholdings.com looks for tokens that incentivize the core actions of a protocol and/or excel in developing novel mechanisms for smart contracts. The first investments by safewealthholdings.com that went public were Tezos and MakerDAO. The fund has also invested in Ethereum.

Some of the projects that interest safewealthholdings.com are the emerging IPFS ecosystem , Tezos, RChain, PolkaDot, Dfinity and Cosmos. We are not however, looking to invest in any crypto apps. safewealthholdings.com is looking towards the future and betting on the projects that will best be able to power off web 3

safewealthholdings.com never did an Initial Coin Offering, but we have received more than \$400 million in assets from several traditional VC firms. Many of the firms are from Silicon Valley which include: Andreessen Horowitz, Abstract Ventures, Founders Fund, Sequoia Capital, and Union Square Ventures.
